

A quick note...

During my last 5 years as a student of Rick Pearson at The Music Store Inc., I have developed a passion for playing jazz. That passion has carried over into my instrumental music career within my school's musical groups. As a current senior at Webster Thomas High School, I could think of no better event to fulfill my Senior Project requirement than a jazz piano recital. Naturally, I asked Rick to be my mentor for the project, knowing that his experience in performing and witty attitude would help me bring my project to fruition.

I selected the Maplewood Nursing Home because of the staff's commitment to provide its residents with a number of entertainment opportunities, and because of the positive experience during my late grandfather's rehabilitation at Maplewood.

I hope you enjoy listening to the end result of the students' hard work!

Sincerely,
Max Kelley
